Availability: Immediate Joiner

Professional Summary

Results-driven Software Engineer with 5+ years of experience in designing, developing, and maintaining scalable web applications and APIs. Proficient in PHP (Laravel), Golang, and modern frontend frameworks, with a strong focus on performance optimization, clean architecture, and cloud deployment. Skilled in microservices, API integration, and SQL tuning. Adept at collaborating in agile teams and mentoring peers to deliver high-quality software solutions.

Skills

Languages: PHP, Golang, JavaScript (ES6+), SQL, HTML5, CSS3

Frameworks & Libraries: Laravel, CodeIgniter, Gin, Echo, React.js, Next.js, Bootstrap, jQuery

Architecture & Tools: Microservices, RESTful APIs, Clean Architecture, Docker, Git, JIRA, Postman, Redis, AWS

Database Management: MySQL, PostgreSQL, SQL Query Optimization, Query Profiling

Other Expertise: API Integration, OAuth (Passport, Sanctum), Cron Jobs, Background Services, CI/CD Pipelines

Soft Skills: Problem Solving, Effective Communication, Team Collaboration, Adaptability, Ownership, Continuous Learning

Experience

Backend Developer — Adventure Dhaka Limited

Dhaka, Bangladesh | November 2024 – June 2025

- Developed and maintained backend services for Hotel Manager Panel, supporting 10,000+ daily hotel operations with 99.9% uptime.
- Integrated third-party PMS and API systems (AirHost, Temairazu) to automate synchronization of data across platforms.
- Optimized API response times by 35% via advanced SQL query tuning and Redis caching strategies.
- Conducted code reviews, improved documentation, and mentored junior developers.

Software Engineer — TechVillage

Dhaka, Bangladesh | June 2020 – October 2024

- Led development of PayMoney, a Laravel-based multi-currency payment gateway used by 1,000+ active users.

- Designed and implemented vendor, inventory, and commission modules for the Martvill eCommerce platform, boosting operational efficiency by 40%.
- Integrated 10+ payment APIs (PayPal, Stripe), adhering to REST and OAuth standards.
- Improved backend performance by optimizing MySQL queries and business logic, reducing server costs by 15%.
- Managed Dockerized CI/CD pipelines to ensure smooth AWS deployments.

Junior PHP Developer — Uttara InfoTech

Dhaka, Bangladesh | Jan 2020 – March 2020

- Supported development of 3+ Laravel-based client projects using MVC architecture.
- Assisted in debugging, feature enhancement, and performance tuning, reducing page load times by 15%.
- Gained experience in API integrations and database optimization.

Projects

Hotel Manager Panel — Skyticket (Backend for Adventure Inc Hotels)

Golang | REST API | PostgreSQL | Redis | Docker | [Live Demo](#)

- Developed scalable APIs and background services to support 10,000+ daily hotel operations with near real-time synchronization.

Martvill — Multi-Vendor eCommerce Platform

Laravel | Bootstrap | jQuery | MySQL | [Live Demo](#)

- Built vendor and inventory management modules, integrating 25+ payment gateways to streamline business workflows.

PayMoney — Online Payment Gateway

Laravel | MySQL | REST API | OAuth | [Live Demo](#)

- Developed a secure backend for multi-currency and cryptocurrency transactions, achieving 35% faster transaction processing.

Education

Bachelor of Science (B.Sc.) in Computer Science and Telecommunication Engineering

Noakhali Science & Technology University (NSTU) — 2015 – 2019

Certifications

- SQL (Intermediate) — HackerRank, Jul 2025 | [Link](#)
- Beginning Vue.js — Ostad, Jun 2025 | [Link](#)
- Introduction to JIRA — Simplilearn, Jun 2025 | [Link](#)

Additional Information

- Experienced in backend development with Laravel and Golang, microservices architecture, ERP, and automation systems.
- Skilled in cloud deployment with Docker and AWS.
- Committed to writing clean, maintainable code and continuous professional development.
